

Turf Seed Mixes and Blends

Variety and formulations subject to change without notice.

Beautiful Lawns

*In Sun
Or Shade*

Colorado High Altitude

25% Ephraim Wheatgrass
25% Annual Ryegrass
15% Hard Top Hard Fescue
15% Creeping Red Fescue
10% Canada Bluegrass
05% Sheep Fescue
05% Tufted Hairgrass

Available in 50# Bags

Colorado High Altitude grass mix is designed for all altitudes in the Rocky Mountain and plains areas. Very drought tolerant, low growing mixture that may be mowed or left to appear more natural. These cool-season grasses are dark green with blade widths ranging from very fine to medium.

Seeding rate: 4 - 5 lbs per 1000 sq. ft.

Colorado's Own Turf Mix

A well-balanced blend of award winning grasses. Beautiful dark green to medium green coloring. It will grow in sun or moving shade. Will tolerate heavy foot traffic. These grasses form a dense, thick turf due to an aggressive root system.

50% Perennial Ryegrass
30% Creeping Red Fescue
20% Kentucky Bluegrass

Seeding rate:
6 - 7 lbs per 1000 sq. ft.

Available in 10#
25# & 50# Bags

Forever Green Turf Mix

50% Perennial Ryegrass
30% Tufted Hair-grass
20% Kentucky Bluegrass

- Drought tolerant
- Excellent wear tolerance
- Exceptional dark green color
- Maintains growth during winter

Forever Green is a blend of three of the top rated turf grasses. All three of these grasses are very fine leaved with exceptional dark green color. They all have a low mowing tolerance. **Forever Green** is a slow growing grass which means you only have to mow about once a month. If fertilized in September it will stay green all winter and does not go dormant.

Available in 3# & 50# Bags

Seeding rate: 3 lbs per 1,000 sq ft

Front Range Classic Turf Mix

A gorgeous, dark green blend of the new and award winning dwarf-type fescue. Lower growing and finer bladed than the non-dwarf varieties. **Front Range Classic** builds a dense turf with prolific root systems. It resists drought and tolerates both heat and cold. Once you plant, it stays in the ground. Very little over seeding is necessary.

33% *Kentucky Bluegrass*
33% *Rhizomatous Fescue*
34% *Fine Fescue*

Seeding rate:

5- 7 lbs per 1000 sq. ft.

Available in 25# & 50# Bags

Front Range Premium Blues Blend

45% *Mongoose Kentucky Bluegrass*
40% *Skye Kentucky Bluegrass*
15% *Cache Kentucky Bluegrass*

Seeding rate:

6 - 7 lbs per 1000 sq. ft.

Available in 25# & 50# Bags

This excellent blend is made of 100% *improved* and elite-types of Kentucky bluegrasses. The cultivars in this blend are all fine-leaved and genetically dark green in coloring. They are fast to germinate with excellent seeding vigor. This blend is very drought tolerant because the grasses have been bred to reach dormancy from lack of irrigation very slowly.

Low Grow - Low Maintenance

This mixture requires less maintenance after establishment. A naturally low-growing, fine bladed, dark green turf. This mixture may be planted in sun or moving shade. All of the grasses are noted for their exceptional drought tolerance. Will grow on a wide range of soil types and fertility levels. **Low Grow-Low Maintenance** is often used in mountain areas for low-growing, unmowed, or infrequently mowed lawns.

Seeding rate:

5 - 7 lbs per 1000 sq.ft.

Available in 25# & 50# Bags

40% *Creeping Red Fescue*
20% *Perennial Ryegrass Blend*
15% *Kentucky Bluegrass*
15% *Hard Fescue*
10% *Chewings Fescue*

Quick Green Grass Mix

35% *Creeping Red Fescue*
35% *Perennial Ryegrass*
30% *Kentucky Bluegrass*

That's exactly what this special formulated mix does--- **Quick Green**. If you want a tough durable, low maintenance, low water use, Turf mix, **Quick Green** is it.

Seeding rate:

10 lbs per 1000 sq. ft.

Available in 50# Bags

Hercules Turf Mix

**TOUGHEST GRASS
ON EARTH!!**

**30% Thermal Blue Hybrid Bluegrass
30% Tufted Hairgrass
30% Karma Perennial Ryegrass
10% Prairie Junegrass**

**Seeding rate: 3 lbs per 1,000 sq. Ft.
Over seeding rate: 2 lbs per 1,000 sq. Ft.**

***If you have kids and dogs this is the grass for you!!
You don't get those ugly brown spots from your dog
like you do with other grasses.....it is truly the
TOUGHEST GRASS ON EARTH!!***

Tired of high maintenance lawns? With **Hercules Turf Blend** you can escape much of the drudgery of lawn work. With its naturally dark green color, **Hercules** requires less fertilizer, less water, coupled with a dwarf growth habit you'll spend less time behind the mower! Choose **Hercules** for superior density, drought tolerance, and high performance. If you want a tough turf, that is soft and cool.....

PLANT HERCULES TURF BLEND!!

Available in 3# & 50# Bags

Nice Lawn Turf Mix

**80% Karma Perennial Ryegrass
20% Thermal Blue Hybrid Bluegrass**

**Seeding rate:
3 lbs per 1000 sq. Ft.**

Nice Lawn turf mix is made of two award winning varieties. Karma perennial ryegrass is a certified seed and is a beautiful dark green. Thermal Blue is a Texas hybrid bluegrass. Together these two varieties have a high drought tolerance. It will recover quickly from drought stress. This grass seems to grow better the warmer it gets in the summer. It has a dense root system which will improve traffic tolerance and will sustain growth and vigor with less irrigation.

- ***Drought tolerant***
- ***Exceptional dark green color***
- ***Excellent wear tolerance***
- ***Low Maintenance***

Available in 3# & 50# Bags

Rocky's Ballpark Turf Mix

75% Spirit Perennial Ryegrass
15% Mongoose Kentucky Bluegrass
10% Fiji Perennial Ryegrass

Seeding rate:
5 - 7 lbs per 1000 sq. ft.

Available in 25# & 50# Bags

Designed for areas of heavy foot traffic such as sports fields and playing areas. These grasses display dwarf characteristics and aggressive habits, repairing quickly from foot damage. **Rocky's Ballpark** forms a beautiful dark green, fine leaved, dense carpet like sod. The mixture prefers a sunny location but will grow in areas of moving shade. Cold and heat tolerant, shows some drought tolerance but will require regular watering and fertilization.

Water-Less Turf Blend

3 - Way Fescue Blend

Seeding rate:
5 - 10 lbs per 1000 sq. ft.

Available in 25# & 50# Bags

Water-Less is a special blend of Turf Type Tall Fescues selected for superb color, texture, disease resistance and mow ability. It's deep root system enables **Water-Less** to tolerate drought and heat exceptionally well. Your **Water-Less** lawn will grow beautifully in sun or shade, allow you to mow close and decrease your lawn maintenance. Best of all, you'll use substantially less water to maintain the richness of a typical **Water-Less** lawn.

Thermal Blue

Texas Hybrid Bluegrass

- High drought tolerance
- Quickly recovers from drought stress
- Great Appearance
- Low Maintenance

Seeding rate:
5 lbs per 1,000 sq. Ft.

Available in 50# Bags

Thermal Blue Texas Hybrid Bluegrass provides bluegrass characteristics of rhizomatous growth and fine-dense turf with added heat and drought tolerance. This grass seems to grow better the warmer it gets in the summer. The hybrid bluegrasses appear to maintain more active summer growth, which translates into better traffic tolerance and ability to recover from traffic injury. **Thermal Blue** has an extensive root system which can enhance heat and drought resistance. A dense root system will also improve traffic tolerance, ability to recover from wear, and will improve footing in a sports turf application. The ability to sustain growth and vigor with less irrigation results from deeper roots and its excellent heat tolerance. **Thermal Blue** maintains an excellent turf quality under lower maintenance regimes.

We also carry single varieties of:

Clover

Kentucky Bluegrass

Fescue

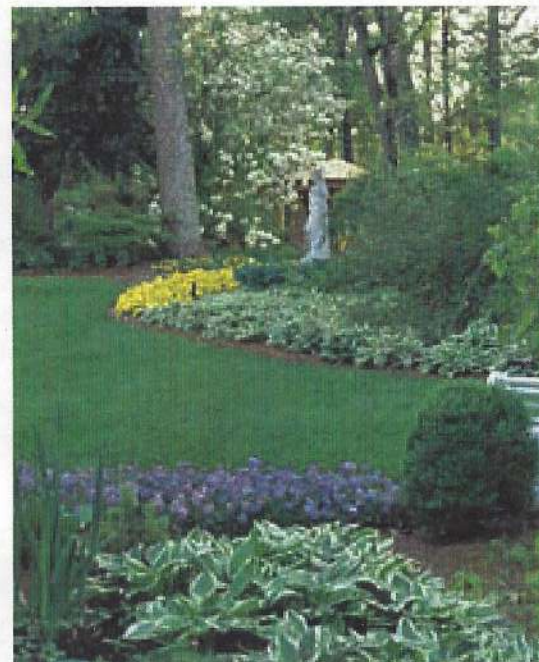

Native Grasses

Ryegrass

Green-N-Grow Fertilizer

Guaranteed Analysis

Nitrogen (N)	20.0%
Phosphoric Acid (P₂O₅)	10.0%
Soluble Potash (K₂O)	05.0%
Iron (Fe)	05.0%
Sulfur (S)	08.0%

This premium all-season fertilizer, 20-10-5 plus 5% iron, can be applied every 6 to 8 weeks throughout the entire growing season to develop and maintain a thick, green, lush, healthy lawn. Also great for vegetable gardens.

Water-Less Turf Blend

3 - Way Fescue Blend
